

ENVIRONMENTAL POLICY

M/s M. G. MOHANTY

We recognize the importance of conserving and preserving the environment to ensure long term sustainability across the value chain and around areas of operation. Wherever possible we will prevent or otherwise minimize, mitigate and remediate harmful effects of the company's operations on the environment.

We are committed to deal productively with climate change issue by efficient use of natural resources and energy, reducing and preventing pollution, promoting waste avoidance and recycling resources.

We Strive -

- To identify, access and manage our environmental impacts up to extent possible.
- To regularly monitor, review and report publicly our environmental performance.
- To enhance awareness, skill and competence of our employees (direct and indirect) so as to enable them to demonstrate their involvement, responsibility and accountability for sound Environmental performance.
- To deploy necessary resources for use of clean technologies.
- To promote energy conservation through all our corporate decisions.

We are committed to continual improvement to our environmental performance in a scientific and sustainable manner. We are committed to implement and maintain management standards and system, leaving no stone unturned to comply the relevant industry standards, legal and other requirements and strike to go beyond that.
